

**Wireless Innovation Forum Opens Registration for its Conference
on Communications Technologies and Software Defined Radio
(SDR-WInnComm)**

For Immediate Release

Washington, DC, 14 January 2014 – The Wireless Innovation Forum (www.WirelessInnovation.org), a non-profit international industry association dedicated to driving the future of radio communications and systems worldwide, announced open registration for its **Conference on Communications Technologies and Software Defined Radio (SDR-WInnComm 2014)**.

Attracting attendees from all aspects of the reconfigurable radio value chain, SDR-WInnComm is the ideal place to network and make an impact on the advanced wireless radio community. It will take place 11-13 March 2014 at Motorola in Schaumburg, Illinois.

As the only event devoted to advancing innovation in spectrum access and radio technologies from research through deployment, this is the premier venue to network with and learn from the leading innovators in the advanced wireless market to gain a functional knowledge of relevant emerging opportunities and technologies. The event features three days of keynotes, tutorials, technical papers, workshops, a product exposition and more.

"SDR-WInnComm is an excellent place for academics to meet industry leaders to understand their critical problems and to present research ideas to leaders that can implement their ideas," said **Dr. Jeffrey Reed** of *Virginia Tech*. "The event also provides the opportunity to build relationships with industry leaders that can transition technology from the lab into successful products."

This year's keynotes include:

- **Vanu Bose**, *Vanu, Inc.*
- **John Chapin**, *DARPA*
- **Johanna Dwyer**, *Federated Wireless LLC*
- **Greg Ennis**, *Wi-Fi Alliance*
- **Bruce Fette**, *DARPA*
- **Dennis Roberson**, *Illinois Institute of Technology*

Workshops featuring leaders in the industry from **Google, NASA, DARPA, WiFi Alliance**, and more, include:

- Real World Implementations & Demonstrations of SDR, CR and DSA
- Future Trends in SDR, CR, and DSA Business
- SSPARC Workshop: Technologies And Opportunities for Sharing with Radar

View the complete agenda **here**: <http://groups.winnforum.org/2014-Agenda>.

New this year, in addition to the main program, poster sessions have been added to facilitate better networking between paper presenters and Forum members on all SDR, CR and DSA topic areas.

In its 12th year, SDR-WInnComm attracts attendees that include investors, commercial network operators, radio manufacturers, system integrators, government procurement officials, regulators, engineering service providers and consultants from over 22 different countries. Supported by platinum Sponsors [General Dynamics C4 Systems](#), [Indra Sistemas](#), [Objective Interface Systems](#), [Rohde & Schwarz](#), and [Selex ES](#), the Wireless Innovation Forum provides a singular venue to **advance** software defined radio, cognitive radio and dynamic spectrum access technologies, to **educate** and influence decision makers at all levels of the wireless value chain, and to **drive changes** that will address emerging wireless communications. The Forum enables professionals to network with the leaders in the advanced wireless community, including potential customers to explore new business opportunities, potential competitors to gain insight into product and service differentiation, and potential suppliers to influence their requirements and thus reduce overall R&D costs. Additional information can be found at <http://www.WirelessInnovation.org>.

About the Wireless Innovation Forum

Established in 1996, The Wireless Innovation Forum (SDR Forum Version 2.0) is a non-profit mutual benefit corporation dedicated to driving technology innovation in commercial, civil, and defense communications worldwide. Members bring a broad base of experience in Software Defined Radio (SDR), Cognitive Radio (CR) and Dynamic Spectrum Access (DSA) technologies in diverse markets and at all levels of the wireless value chain to address emerging wireless communications requirements. To learn more about The Wireless Innovation Forum, its meetings and membership benefits, visit www.WirelessInnovation.org.
