

**Wireless Innovation Forum Announces Technical Program for its Annual
Conference on Communications Technologies and Software Defined
Radio (WInnComm 2015)**

For Immediate Release

Washington, DC, 17 February 2015 – The Wireless Innovation Forum (www.WirelessInnovation.org), a non-profit international industry association dedicated to driving the future of radio communications and systems worldwide, announced today the technical program for its upcoming **Conference on Communications Technologies and Software Defined Radio (WInnComm 2015)**.

As the only event devoted to advancing innovation in spectrum access and radio technologies from research through deployment, this is the premier venue to network with and learn from the leading innovators in the advanced wireless market to gain a functional knowledge of relevant emerging opportunities and technologies. The event features three days of keynotes, technical papers, workshops, a product exposition and more at the Qualcomm Institute at UC San Diego in Atkinson Hall, 24-26 March 2015.

This year's keynotes include:

- **Paul Garnett**, *Microsoft*
- **Julius Knapp**, *FCC's Office of Engineering and Technology*
- **H Sama Nwana**, *Dynamic Spectrum Alliance*
- **Ed Tiedmann**, *Qualcomm*
- **Klaus Doppler**, *Nokia Research*

Featured workshops include:

- 5G: What's the Big Deal?
- Dynamic Spectrum Sharing
- Big RF and Context Aware Cognitive Radio
- Evaluation, Analysis and Prototype of SCA 4.1 Results

The conference will also feature eight technical sessions with papers on: CR and DSA Architectures; SDR, CR and DSA Signal Processing; Interference Mitigation; Receiver Architecture and Performance; Software Communications Architecture; Platforms, Test Beds and Demonstrators; and Vehicle Communications.

The event will hold poster sessions along with a product [exhibition](#) featuring BEEcube, DRS Technologies, NordiaSoft, Pentek, PrismTech, Reservoir Labs and Siru Innovations Oy.

View the complete agenda **here**: <http://www.conference.wirelessinnovation.org/conference-at-a-glance>. To apply to exhibit at the event, click here: <http://www.conference.wirelessinnovation.org/sponsorship-and-exhibiting>.

In its 13th year, WInnComm attracts attendees that include investors, commercial network operators, radio manufacturers, system integrators, government procurement officials, regulators, engineering service providers and consultants from around the world. For more information on the Conference, visit <http://Conference.WirelessInnovation.org>.

Supported by sponsors [Selex ES](#), [Motorola Solutions](#), [Pentek](#) and [Thales](#), the Wireless Innovation Forum provides a singular venue to **advance** software defined radio, cognitive radio and dynamic spectrum access technologies, to **educate** and influence decision makers at all levels of the wireless value chain, and to **drive changes** that will address emerging wireless communications. The Forum enables professionals to network with the leaders in the advanced

wireless community, including potential customers to explore new business opportunities, potential competitors to gain insight into product and service differentiation, and potential suppliers to influence their requirements and thus reduce overall R&D costs. Additional information can be found at <http://www.WirelessInnovation.org>.

About the Wireless Innovation Forum

Established in 1996, the Wireless Innovation Forum™ is a non-profit “mutual benefit corporation” dedicated to advocating for the innovative use of spectrum, and advancing radio technologies that support essential or critical communications worldwide. Forum members bring a broad base of experience in Software Defined Radio (SDR), Cognitive Radio (CR) and Dynamic Spectrum Access (DSA) technologies in diverse markets and at all levels of the wireless value chain to address emerging wireless communications requirements through enhanced value, reduced total life cost of ownership, and accelerated deployment of standardized families of products, technologies, and services. The Forum acts as the premier venue for its members to collaborate to achieve these objectives, providing opportunities to network with customers, partners and competitors, educate decision makers, develop and expand markets and advance relevant technologies. To learn more about The Wireless Innovation Forum, its meetings and [membership benefits](#), visit www.WirelessInnovation.org.
