Wireless Innovation Forum Welcomes Qualcomm’s Doug Knisely to the Board of Directors

For Immediate Release

Washington, DC, 5 April 2016 – The Wireless Innovation Forum, a non-profit international industry association dedicated to driving the future of radio communications and systems worldwide, today announced appointment of Doug Knisely of Qualcomm (NASDAQ: QCOM) to its Board of Directors.

Douglas Knisely is a Principal Engineer at Qualcomm, where he focuses on Spectrum Sharing industry standardization activities, including serving as an active contributor to the WINnForum Spectrum Sharing Committee. He has an extensive background in cellular industry standards, having led many radio and core network efforts in 3GPP2, 3GPP, Broadband Forum, Small Cell Forum, and other groups. Prior to joining Qualcomm, Doug was with Airvana, where he led the initial Femtocell standardization activities for 3GPP and 3GPP2 3G and 4G radio technologies and Femtocell device management, and made significant contributions to the seminal industry standards for Femtocells and Small Cells, as well as leading MAC standardization for cdma2000 2G, 3G, and 4G radio standards for many years in Lucent Technologies. His early career activities included architecture and development management for early multiprocessor blade computing systems and communications and protocol architecture, design, and implementation in AT&T Bell Laboratories.

Management and oversight of the Forum as a whole, including the Forum’s corporate affairs, is performed by the Forum Board of Directors. WINnForum members are dedicated to advocating for the innovative use of spectrum and advancing radio technologies that support essential or critical communications worldwide. Through events, committee projects and initiatives the Forum acts as the premier venue for its members to collaborate to achieve these objectives, providing opportunities to network with customers, partners and competitors, educate decision makers, develop and expand markets and advance relevant technologies.
