

CREW WinnComm tutorial

5: using the CREW portal – join the open call!

Ingrid Moerman

WinnComm 2012, Brussels

The research leading to these results has received funding from the European Union's Seventh Framework Programme (FP7/2007-2013) under grant agreement n° 258301 (CREW project).

WinnComm 2012 – CREW tutorial

PORTAL

- The crew portal is a website
- Content
 - description of the facilities
 - description of cognitive components (e.g. sensing engine)
 - usage policies
 - requesting accounts
 - getting started: tutorials
- **Publicly accessible:**
 - www.crew-project.eu/portal

Portal: getting started

[View](#) [Edit](#) [Outline](#)

Not sure which facility to use? Start by accessing the [graphical overview of the CREW facilities](#), or consult the list of [testbeds](#) and [cognitive components](#) for a concise description of the different components. This list can be filtered based on technology, application, and frequency range, to find the component that is most suitable to you.

Once you know which testbed(s) or component(s) to use and for detailed information, consult the [advanced information section](#).

For **information on the benchmarking platform**, please consult the [section of the w-iLab.t testbed on benchmarking](#). For **information on the CREW common data format**, please consult the [page on the common data format](#). You can use the menu on the left of this website to navigate through the portal.

WinnComm 2012 – CREW tutorial

SECOND CREW OPEN CALL: GET FUNDED TO USE CREW

■ Budget: 440 000 EUR

- min. funding/proposal: 50 kEUR
- max budget/proposal: 120 kEUR
- *[note: funding = EU contribution]*

■ Target number of proposals to be funded: 4-8

- At least 1 proposal from industry

■ Number of partners per proposal: 1 or 2

■ Call deadline: Wednesday, October 3, 2012

■ Expected start: February 2013

■ End date: no later than September 2013

■ Address for proposal submission: ict@ec.europa.eu

■ Call identifier: CREW2012-OC2

■ Language of the proposal: English

■ categories (preliminary)

- 1: layer 1: spectrum sensing algorithms
- 2: layer 2 and higher: cognitive radio/networking protocols

■ Acceptance rules:

- At least 1 experiment in each category will be funded
- At least 1 experiment with industrial participants will be funded

■ Restrictions:

- CREW hardware cannot be moved outside the CREW testbeds
